

Set in a landscape of marvelously green Umbrian hills, Angelica's B&B enjoys awesome views and inspires a wonderful sense of well-being.

With three individually styled rooms, staying here is more like a sojourn at a charming home than being accommodated at a hotel. In the heart of Italy and close to Rome, this is the perfect base for excursions to many of the fascinating cultural and historical places in Umbria, Tuscany and Latio.

THE HOUSE

Situated close to almost all places of interest in Umbria, Angelica's B&B is a perfect retreat for travellers exploring Italian culture. Enjoy countryside chic in a fascinating environment!

Relax at our wonderful swimming pool or explore the surroundings by bike or horse; that is, if you are not visiting any of the many cultural attractions that are just a short drive away.

We welcome all guests and their pets, making Angelica's B&B a unique pet-friendly place to stay! While we also love children, the house and the surrounding terrain are less suitable for very young children (under the age of ten).

THE GARDEN & SURROUNDINGS

Of course, central Italy is all about culture and sightseeing! Touring historic towns is, however, a strenuous activity, so we offer a wonderful garden and landscape to relax and enjoy while hiking, biking or swimming! And ... surprise! You can also learn to scubadive here – with a PADI instructor having 30 years of diving experience!

For those seeking absolute tranquility and relaxation, our two hectares of property offer many cozy corners to retreat to with a great book to read. Or why not just snooze in the hammock under the fig tree? More active individuals may like to practice yoga with Angelika – where better than in this serene environment?

SIGHTSEEING

And where to begin with sight-seeing? Rome, Orvieto, Siena, Todi and many, many other great places are reachable within an hour and a half at the utmost. Angelica's B&B is so centrally located that it is the ideal stepping stone for many inspiring trips to ancient towns and famous cultural centers. And of course, we are more than happy to provide a lot of tips that are not usually found in the guide books!

Away from the touristy buzz, there are also some really small gems to be seen in the immediate vicinity. Amelia, Narni, Bomarzo and others are off the trodden path, but by no means less beautiful or interesting! And why not visit the Arezzo antiques market or a dazzling Renaissance villa?
